Beside of the " **SA – OM** " – whirl – structure – technologies , – de-  
scribed inside the articles – **Basics – 1** till – **5** –

- and the additional developed agricultural ( – here especially a healthier  
growth of plants plus a energetic transformation of the environments speeding and  
forcing up - ) technology , – described with some experiences  
about , – inside of the article **Additional – 2** , –

– I would ( – and nevertheless for some nowadays scientists and physicians , – this - or  
some parts of these I'm explaining here experiences , – may look maybe very strange , – but also  
for a future scientific and practical stock – taking , – I - ) like to share with You now  
also some ( – also on the subtle levels basing , – some of them over many years for myself  
practiced ) **more medical experiences** :

The different experiences and practices I'm counting here ( – ( – but out of  
the there kept chronology - ) according to the article - **Additional – 2** , – further – on )  
from **15** – till – **20**

- also just using the same addings
  - **m** – standing for medical ,
  - **a** – here for additional agricultural useful aspects and
  - **e** – here for additional environmental useful aspects .

15 – m/a/e

Additional to all above ( - inside of the articles **Basics – 1** and **– 2** + inside of **Additional – 2** - ) described technologies experiences ,

– here just together with my ( - also these times , just higher aged and over **30** years for his own researching on these finest energetic themes - ) divining – rod – teacher ( - , - who was wounded as a **17** years old youngster inside the **2.** world – war such extremely ( - just having till his passing away in **1997** , - pieces of munitions inoperable inside his lungs - ) , - that even all medical doctors he met over the years , - gave him no chance to survive maybe about over **1 – till 2** years ) ,

– he was treating himself all over the years as also some of his friends ( - beside highest quality food , drinking – water and some other – especially additional with acupuncture – methods , - ) mainly through or with a out of his own researches developed ( - here till that times ( - and beyond of the fact , that everything in cosmos is original basing on the “ **AUM** ” , - here ) not on “ **OM** ” – and “ **SA – OM** ” - whirl – structures – ( , - as a basic technical proceeding ) - , - but on some other ( - lower levelled ) methods basing - ) energy – transferring – technology .

**S**o he has found , – that if he has to use or take some ( - maybe for his heart or his systemic – circulation from his medical doctors given or prescribed - ; - but also with normally as herb or as a tea etc. to intake ) for him normally always very difficult , or hardly to take and to digest medicine ,

– he could otherwise just transfer the energies of such an original ( - but at best at first prayed for - ) medicine into an other ( - also at best also prayed for - and on the subtle levels both asked for permission for this procedure - ) material , – as a carrier and future sender of these energies .

Using for example a glass – material toy – marble as his future medical unit or permanent – medicine , – he loaded her up with the ( - *allopathic* , - *homoeopathic or herbal* – ) medical energies and carried or was wearing her for longer times or over years as a collar in front of his thymus – gland .

So – in most cases , he hadn't to take and also he doesn't intake anything toxic , – or with any huge side – effects anymore ( - *now **also extremely cheap and material – extensive*** ( - *also because having only one high – quality tablet for medicines - , - or one high – quality herb as the original energy – source over all years was more as enough* ) ; - ) inside his bodily systems .

( - **See here please also the comment at side – 5** )

16 – m

Are I'm also using ( - now over about **15** years - and just generating the same healing - powers as at the first day - ) some ( - in principle ) out of this ( - under **15 – m/a/e** ) above described technology proceeded small glass – bottles , – powered – up with the purest energies of the **BACH – flowers** ( - from - or founded by **Dr. Edward Bach** ( - from **UK** around **1920** - ) ) ,

- but in opposite of normal ( - or inside the medical stores bought ) **Bach – flowers** , where You may have about maximum **3** till **4** meters Aura – radius ( - with only some - or very moderate healing – frequencies , - )
- here with one single bottle , You could reach about **140** meters energy Aura – radius with all full ranged healing – frequencies .

Have ordinary **Mr. Bach's – flowers** ( - also anytime they are empty , - or over the time of their maturity - ) to be bought , then taken through gulping or also through massage – treatments inside the skin ,

– here , – You could ( - if You've chosen the right flower – energy before , - ) just take such a bottle inside Your ( - also with a at best before tested most healing – potential body – side , - so either with the left or right - ) hand – and Your body is charged up with these energies ,

– or if You like these energies as a inside drinkable or liniment fluid , You could give some water ( - or also some sesame - , olive - etc. – oil - ; - ) inside the bottle and the water or fluid is charged up , that You could drink it ( - or whatever ) afterwards .

Are these energy – filled bottles , – ( - also alike my teachers marbles , - ) – same cheap as highest effective ,

– as I treated ones sometimes a highly sensitive neighbour’s girl with these bottles , she told her mother after some time near at the end of all treatments –

“ O my dear mother , – these bottles ( - I was giving to her for some times ( - with shortest treatments of about **5 – 10** minutes ) over about 3 quarters of a year , - ) however I can’t imagine how , - are helping so nicely ( - also without any unwelcome side – effects ) all the time ! ”

**Here inside** ( - till **side – 6** ) **a small comment** ( - especially for the above articles - **15 – m/a/e** and **16 – m/a** ) :

**May** such a medical technology promise highest advantages also for a future ( - same easy , as safest and cheapest maybe for many or most allopathic - as phyto - therapeutic or Ayurvedic - treatments suitable - , - or also to optimise all other treatment - technologies appropriately - ) medicine , -

( - where its also possible to combine for example the energies of different herbs etc. inside of one unit etc. also - ) , -

- **beside of serious and clearest** ( - also medical – scientific - ) **re-searches on all these themes** ,

- we are here also in need of ( - through nowadays sometime long travels , airplane - flights , - train - or ship - journeys etc. , not so easy achievable - ; - also on the subtlest levels , - so - ) also at best through additional **AGNI – HOTRA –** and **“ SA – OM ”** – whirl – etc. – technologies secured highest quality ( - of the origin energies , - respectively of - ) medical – drugs and herbs .

**Is** any true healing directed , realized and accomplished from and out of the **BRAHMA – PREMA – ATMA –** soul – level alone , - also the really needed healing – energies of plants etc. are originally **“ MA ”** – Holy – Mother – Godly love – energies who are beyond of and not bound to any matter and form .

**Are** we using a plant as anything in the inner awareness that the plant is minimum a part of God , - or God himself , she – or the plant has the powers of ( - the none – bound to matter and form - ) God himself also .

**M**ay we think of now , that a single prayer alone ( - as we may think in nowadays modern – named circumstances sometimes ( - , - here also just separating sacral named actions and daytimes , from the profane – called life - ) , - that a prayer is only a once , twice , or three times etc. a day performed event or practice , who - ) hopefully may be or should be enough effort , – to accomplish all healing – powers and – potencies ,

– but in my long – year practices it was shown to me ( - sometimes very drastically ) ,

– that every **MANTRAM** – or true prayer ( - always together and inseparable one with **YANTRAM** and **TANTRAM** ( - see here please also inside of **Basics – 3 “MANTRAM – YANTRAM – TANTRAM – prayer - technologies” - Side 1** ) - ) , – has to be filled ( - as its **YANTRAM** – aspect - ) with the according moral – , social – and environmental – ethical as technical ( - “**MA**” – alike or “**MA**” – identical , - all caring , loving and saving - ) actions and procedures ;

– so here ( - and in the nowadays ( - also on subtle levels ) sometimes extremely polluted environmental circumstances ( - also from the technical - side ) ) especially with ( - the beyond or better above of material and mental processes ) function and proceeding ) “**OM**” – and “**SA – OM**” – whirl – technologies ,

– where all healing – frequencies are arising out of **naturally and according to the Absolute** same harmonious , as in the right dosage and intensity ,

– otherwise there was – and is no true or deepest as highest effective function and result **!!!**

17 – m/a/e

Sometimes with highly special energetic treatments with the ( - *also above shortly described* ) question about – or of the highest quality , or purest subtle energy of a medical drug or herb – ( - *like also beside of other huge problems there , - also a bigger problem of homoeopathic medicines* ) , –

( - *we could* ( - *what I haven't done till now in this cases* ) *probably try to solve these problems more complex over asking the plants* ( - *see at* **Basics– 5 - “ How to feel and to classify finest energies ”** , - ) *also about their help , the best pieces and so on - ; - otherwise -* ) -

I made several tests , – according to the **NAMA – RUPA – principle** ,

– where the name is deeply related and connected with the form , – so that if we are saying for example the word **“ Lotus ”** – also the figure of a lotus – flower , – the smell , colour and light ( - *maybe additionally with all its surrounded biosphere with the water , its heart – alike formed water - leafs with libellees or butterflies etc. -* ) is arising before our inner sight ,

– if we are saying – or thinking of the **“ Sun ”** – also the ( - *for me rising* ) **Sun** appears in all her – his beauty inside my inner sight ,

– so same it is ( - *even we will not experience like the other ones -* ) with

– **“ OM ”** and **“ ATMA ”** !!!

Are and is now everything arising out of the "OM" and "ATMA", – naming or calling something as Godly aspect, – in truth as God himself inside this seem to be particular aspect, as –

"OM - Lotus" or "OM - Sun"

– we see, feel and experience at once, that here a deepest Godly silence same as highest power is arising of and the absolute energy ( – of the Absolute – God ) comes in appearance and gets visible .

So also

"OM - Love"

or

"AT - MA"

are just one and the same .

So , if the medical doctors may diagnose a bodily absent of enough of a special element , – for example ( - *as it ones happens with my own body* - ) of ferrite , – here in Western – Europe its in the most cases not coming from that the people doesn't have enough to eat , – but more from a digestion – problem of the body or that he doesn't take seriously what's coming inside as food .

So at that time , I was just inside a hospital and the doctors told me , because my body – ferrite – level is so huge downhill , that ( - *even I was feeding my body at these times pure vegan* , - ) I should eat meat or eggs etc. ,

– so – even if You could eat some sesame which has highest amount of ferrite inside of plants , – I tried just to write on a paper –

– “ **OM – Ferrum** ” –

– and just wearing ( - *accordingly to a highly advanced homoeopathic method of taking the medicines not by eating them inside the body , - but wearing them* ( - *so also most digestible because if You take it away , - all symptoms and sometimes hard side – effects also disappear and opposite - ; -* ) beside the ( - *then tested and normally at sunrise and sundown changed -* ) left – or right side clavicle's dip - region , - ) this piece of paper near my body and waited .

Don't I remember now if I eat this time also a little bit of sesame , – but just the next blood – analysis , – the doctors couldn't believe it , – anything was on the best level and just ok !!!

Here inside a small , – **but important remark** :

- **Are** I'm telling **You** all this not that You may treat others or Yourself like this , – also I'm describing several experiences for future researches and investigations .
- **All** here described practices or procedures are up to **Your own responsibility** and more a scientific stock – taking of different energetic experiences , then a guiding instruction for ( - *here on medical levels* ) inexperienced laypersons or amateurs .
- **So – if You have a real problem** , – go and visit the medical doctor or the right professionally experienced persons .

## 18 – m/a/e

Treating myself ( - and also our garden's plants ) homoeopathically over many years mostly with self – made own body – nosodes ( - up till **D 32** ) plus with bought adequate globules or liquid medicines etc. ,

– ( - but always before of the treatment , - testing ( - by or through special divining – rod - techniques ) the best potency plus dosage , - ) I made the experience ,

– that if we are praying

( - at best beside of the **GAAYATRI – Mantram** or **NAMASMARANAM** while producing or proceeding - , - or also in front of entering the medical store to buy some medicines - ; - but here ( - for a better understanding and real differenced testing – results ) especially in these cases and situations , - we have not prayed before , - so praying now )

in front of the treatment ( - here especially for the medicines - , - also alike before partaking any other food , - the **BRAHMARPANAM** , **GAAYATRI – Mantram** , **PATER – NOSTRUM** - or a alike out of other tradition's prayer - ) , -

– then , beside of

( - that the medicines are changing totally their inner subtle frequency – compositions ( - see her please also inside of **Basics – 3 “ MANTRAM – YANTRAM – TANTRAM – prayer – technologies ” - especially at Side 4 – 10** ) , - also - ) –

the resulting needed and useful homoeopathic potency – , – also the for the treatment needed dosage is ( - or are both - , - with sometimes huge amounts or numbers ) going down .

Have I made – and are we making suchlike experiences ( - after a prayer for the medicines ) all the time , in principle same with food or all sorts of also allopathic as herbal medicines ,

– in homoeopathy , – the needed and estimated dosages and potencies ( - also because the patients will get sometimes ( - as first secondary side – effects ) maybe also some aches or other unwelcome body – reactions , - so the right procedures and formulae ) are ( - for the physicians as for the patients - ) of highest interest and attention .

May You know or heard about ( - I myself had also heard about ) a ( - may be about 20 - or longer ) years back made experiment ,

– where a ( - mainly on organic - or biologic – dynamic farming interested ) agricultural research – institute had the idea , – that maybe it's possible to fertilise the fields or plants ( - also inside of horticultures etc. - ) not through the original cow – dung anymore ,

– but now and possibly also in future ( - so only needing forever just a little bit of the original material or substance , - so in their thoughts , also much more easier and low – cost , - ) through a homoeopathic potency ( - plus biggest proportioned water – mixture ) of the cow – dung .

So to test this , – the scientists –

- where making ( - *in the traditional way of up and down shaking* , - ) the homoeopathic potencies ( - *I don't know how many single potencies* , - *may be* ( - *also to see the principle direction* , - *at first only* - ) till about **D 20** or **D 30** ),
- where mixing them up with the plant's watering – water ,
- and let the sowed or settled vegetable – seeds ( - *all under the same soil* - , *light* - , *sun* - , *warmth* - *etc.* - *circumstances* ) grow till ripeness – times , -

always looking about the resulting reactions and effects .

Was the hope of the scientists originally maybe immense ,

- the researching – results where **disastrous !!!**

From the first homoeopathic potencies till the last , – every suchlike watered plant was grown in another way and figure :

- ( - **As an** ( - , *here because I can't tell You the exact results* ; - *but in its resulting consequences and in the meaning for us analogue* - ) *example* ) – Like –
- one plant , – with biggest roots , but only a small stem and no leaves ;

- the other one ( - *with just the next homoeopathic potency* ) with small roots , stem , small leafs and fruits but totally ill and full of cancers ; -
- then one with biggest blossoms but without any fruits ; -
- the next potency with gigantic growth , but horrible tasteless none – eatable fruits ; -
- and ( - *in my remembrance and as me was told above* - ) with the exception of only one homoeopathic potency , causing a in the dreamed direction proceeding growth , - where this potency was additional also only plant – specific and for other plants not digestible or usable , -
- the plant – deformations ( - *I think – that the soils where not tested* ) where just going on with totally chaotic denatured growth – results over the full testing – line ( - **attention , attention** ) **!!!**

## So what does this mean now for us ?

Are these growth and health – reactions of the plants so chaotically massive , we have to think about ,

- that also the environmental consequences –
  - especially ( - because in this healing - system we're using mostly and only - **D 6 , D 12 , D 21 , D 32** - etc. - and - ) if all ( - the through the production of homoeopathic medicines made enormous amounts of ) between – potencies ( - , or here all **D 2 – D 5 , D 7 – D 11 , D 13 – D 20 , D 22 – D 31** - fluids , - ) are additionally ( - in Germany through governmental laws as any other medical wastes - ) destroyed by fire ( - inside of special higher – temperature furnace – plants ; - and so by or through the exhaust coming into the big ranged atmosphere , - ) , – or also when just thrown away ( - especially , - here also by burning , - then with the extreme chaotic mixtures of all the just poured together different potencies and sorts also ) , - so –

for the atmosphere as for the soils and every living being around ,

- as also the consequences for human – treatments ( - with the big problems of ( - if clearly tested ) the right homoeopathic potency , which is truly more as only sometimes just between the normally only used potencies , - ) ( - and also with the big problems , - of other person's - or original animal nosodes ( - here nosodes are homoeopathic preparations , originally basing on animal or human blood , saliva , or other bodily fluids and materials ) , - where the patient may additional take some for him totally strange **KARMA** of an other being ) , –

are comparable and analogous , – more dangerous than in any way long – time lasting and deeply helpful .

Was I'm searching also to find a method to neutralise the subtle energies of all homoeopathic fluids , between – potencies , out of used globules , as every other material suchlike , that the materials will come back to a naturally energy – status and earth – adequate behaviour , – also to move smoothly back inside the natural – immune – systems of the earth ,

- also here ( - as You just know out of the articles – **Basics – 1** and **Basics – 2** - ) ,
- if we are bringing a homoeopathic fluid – , tablet – or globules – medicines inside an “ **OM** ” – whirling – process ,
- or also , – if we are letting flow or casting some homoeopathic treated fluids – , tablets – or globules – medicines through a “ **OM** ” – whirl – structured ( - well – proportioned ) bowl , vessel , vase , amphorae or whatever ,

also homoeopathic medicines , are at once first neutralised and charged up with ( - nature – adequate ) and harmonious full ranged healing – frequencies .

Nevertheless we should take in future at best the old traditions and paths of **AYURVEDA** and all related or alike medical traditions of purest herbal – medicines , – in addition with “ **OM** ” – and “ **SA – OM** ” – whirl – structure – procedures , –

– but also because I was treating my body so long time before with the homoeopathic – system

- ( – where the functional focus of the homoeopathic medicines are not on the good and helpful qualities of ( - for example ) a plant - ,
- but here reverse or controversy , on the poisoned or unhealthy and the difficult ( - for example through bad and extremely over – dosage ris- king ) qualities of the plants ;
- whereas a real soul – adequate remedy ( - and only this is deepest and true healing alone , - ) is focussed on highest , best , life – giving and life - presenting qualities and values only - ) , -
- ( - here along with the strong – related and resultant effect , - that if we are looking to anything or any – one in the focus to its - his – her hopefully bad qualities , - here towards the ( - as herbal medical basics of homoeopathic prepa- rations and potencies searched and used ) plants ,
- also the plants and nature are just at once ( - on subtle energetic levels ) reacting accordingly and adequate to our wrong - directional focus and view - ; - so - )

– I’ve tried some additional experiments :

### 19 – m/a/e

So I was trying ( - here testing also with another professionally in homoeopathy over many years experienced person , - ) this same ( - here above , - at **17 – m/a/e – side – 7** described ) “ **writing – procedure** ” for and as ( - so totally none – or better above – material ( - and so also never ordinary ( - respectively according to homoeopathic producing - procedures - ) dynamical - vibrated or accordingly stirred – up - ) ) homoeopathic medicine .

And also ( - through the above at **side – 17** in parenthesis positioned facts , - we are knowing now why , - ) this was much more effective and stronger as any other maybe anywhere bought or ( - through ordinary procedures , ( - I’ve made it for many years myself till about **D 32** ; - ) ) self – produced medicine .

Also if You are testing this on finest levels , – You could see , that ( - here also **MANTRAM** – or prayer – alike - ; - see here please inside of **Basics – 3 – “ MANTRAM – YANTRAM – TANTRAM - prayer – technologies ”** ) the homoeopathic potency , – if You didn’t found the right one ( - and this is much more difficult as nowadays homeopaths are thinking about or practice it - ) , – this piece of paper changes the energy according to the patient’s needs towards the better one .

20 – m/a/e

Another very beautiful “ homoeopathic ” ( - *but more spiritual – medical* ) experience is it , – that sometimes if You try to find the right remedy for a troubled or ill patient ,

- we could also look inside our inner ( - *like a awake dreamed* ) vision about .

So **You** or **we** are creating and setting inside our inner vision a film – or cinema – alike situation , – where this person ( - *as also Yourself by self-treatments ( - but that’s not so easy - ) ; -* ) is together with the original homoeopathic plant , seed , root , flower , animal or material etc. .

If we see ( - *inside Your inner pictures now* ) maybe this person now standing some meters away , and we are looking for example for the apis – mellifica – ( - *the honey – bee’s poison* ) – remedy , – we are also arranging a maybe flying or sitting bee , inside .

When we are able now to let this inside film move on and work , – we could maybe see , that our patient –

- is just walking through the picture with no reaction towards the bee – and also no reaction from the bee towards this person ( - **then it was not the right remedy or medicine** ) ;
- is just walking beside but short before leaving the picture having a very short look or eyesight towards the bee – ; – or also if this person is just walking and the bee is looking to this person – ( - **then it was the right remedy on a very subtle level** ) ;

- or also the bee is getting furious and angry about , – or the patient is also getting friendly towards the bee and maybe they are talking together for some time ( - **then it was also the right , - now more material potential remedy** ) .

**S**o if we now examine the founded rightly remedy , – we could find out , – that after or through this inner movie – proceeding , – the patient has just taken the medicine also in the right potency and dosage

- but also without any outside decision , any outside action or any unwelcome ( - *as sometimes with homoeopathic medicines , here the getting at first more - worse* ) bodily side – effects .

**I**n the same way we could also sometimes offer some **VIBHUTI** , or an **A N C H – YANTRAM** , – or whatever helpful , to the subtle beings or to persons and animals in our inner sight .

**S**o – , whenever it's not possible to help in the outside reality ,

- many beings and souls are highly open on the inner levels – and the ( - *also sometimes more as difficult to be seen* ) situations are in this way sometimes changing to the better side at once .

with greetings
