

# **M A T A T E C**

**Energetic Mechanical Engineering , - energetic Environmental – as Medical Technologies**

**Dear Ladies , dear Gentlemen and Friends**

**Here some last**

**E n e r g e t i c V i e w s**

**about the**

**BRAHMASTHAANAM**

Now the **BRAHMASTHAANAM** ( - at Friday the 21.03.2014 )

got fully ready and completed ! ! !

The just started surrounding garden , down , both sides besides and upon the **BRAHMASTHAANAM** with green lawn till to the white – golden Cobra , plus the beautiful **Bourgonville** – flowers as beauty – and shadow bringers ( - just both sides beside of the seats ) will come soon afterwards ! ! !

Here some last

## E n e r g e t i c V i e w s

So with best working together , - with -

- **Krishna** - the mason
- with **Chandra Mohan** - the school manager
- **Raja Shekar** - the school director
- **Narigappa** helping with explanations and supplying us the days with enough of fruits and orange juice
- with **Sai** - the carpenter , helping also with explanations
- the good one **white-cement Workers** from Anantapur
- with **Prabharka** the art - painter
- with several **Teachers** , sometimes asking the children to help for some minutes ; - or also sometimes helping with translations towards Telugu

and all the Others ( - here included all the working with us **Ladies** ) as also with Mr. **Horst Wagner** and Mrs. **Helga Shanti Freundt** ;

- I think We altogether are very happy about this work and  
also the most beautiful as highly astonishing  
subtle energetic Quality - Results **!!!**

Had I just seen in my German experiences , – that a rightly blessing of a

## BRAHMASTHAANAM

- but here only with the ( - *the out of* **VEDIC knowledge** and the inner functions of **Thee " AUM "** newly discovered and developed again ; - ) additional blessings through **M A T A T E C – " AUM " – Healing Technologies**

is highest efficient towards the functions of the **Aura** and **Chakras** of the inhabitants and owners ;

- this above treatment – and getting aware–procedure is also highest essential ( - *as we've now also seen on the example of* **Mudigubba** ; - ) for the as same **Telluric – and Cosmic Transformation** ( - in therefore now only one or single process , - ) both together ,

- and this now also highly astonishing ( - *and here only as a special present of* **Thee ABSOLUTE** *been recognized as esteemed ; - yes India and the whole world is in highest need of this kind of energetic transformations , - as of full powers of the for all beings also fully harmonious "AUM" – healing – energies ; - as just now - ) in a huge area of maybe minimum also around 180 km radius around of the*

## Mudigubba

**SHANTI ANANDA SCHOOL !!!**

So what does this all mean for the people , for agriculture and for nowadays modern life ???

Is it also out of the researches of **Mr. Dr. Mannem Murthy** as through my own long-years researches clear , – that an here especially ( - beside of the highly essential **VEDIC inauguration** including of **MANTRAM , YANTRAM , plus AARATHI** and bell – ringing ; - ) through additional proceeded –

### **M A T A T E C – “ AUM ” – Healing – Technologies**

increased as heightened subtle energy level of the whole area , of surrounded buildings houses landscapes and nature , – of forests deserts rivers lakes and oceans ,

– plus vanishing all subtle negative energies ( - of **UV , IR , D - energy , of Geopathic – and Electro Stresses** ; - ) through a thus inside and outside concentration towards – as also material remembrance of

### **THEE everywhere inherent as essential basing ABSOLUTE**

– plus the logical increase of all around environmental as natural health and vigour with an strengthened **AURA** of more and more people

here all this now greatly inside of the whole radius of about **180 km** with the full powers of **“ AUM ” – Healing – Energies** ,

is highest helpful , valuable and supreme beneficial !!!

**So** solving thus towards the highest extend –

**A )** also the huge problems of the more and more industrialisation not to stop any more also on subtle levels impactive radiation-problems of all the millions and millions of single electrical or electromagnetically function apparatuses , machines , motors , generators , transformers , transmitters , senders , of power stations of industrial as communal plants , of high voltage lines , of pipelines , of gas-tanks , of cars trains aeroplanes and ships .

**Here a comment** to the above Electro Stresses :

**Is** it clear that these above energetic healing and harmonizing – procedures ( - *nevertheless We've also just measured an additional huge calming down of the transversal waves and **Volt/m** ; -* ) with Electro-Stresses they can't change the technically basics , – but are changing deeply the subtle-energetic background of all machines and all otherwise Electro-Stresses emitting apparatuses here also of satellites etc. !!!

**Therefore** ( - *nevertheless this above described **M A T A T E C – Tech-nologies** are highly helpful , -* )

- the with electro – stresses always also emitted transversal wave-powers , – should be hold ( - *also through our All lowest usage of all the techniques* ) as low and as gentle as anyhow possible , – or being hopefully in future mostly avoided with new technologies like the genius innovation of **Mr. Prof. Dr. Hartmut Müller** Pat. Nr. DE 10 2004 03 7923 **!!!**

**A 1** But also future technologies basing on Tesla – rays , on Or-gone and Scalar-waves or magnetic fields , – being “normally” though their high subtle material Polarity – Axes ( - same as medical implants , dialyses - apparatuses etc. ) on subtle levels highly difficult till dangerous to use and handle ,

- are now calming down ( - after some time of energetic impres-sion ) **also !!!**

**A 2** Also with **M A T A T E C** – Transformation – Technologies , – the otherwise often to see energetic disturbances above technical especially electromagnetic charged up apparatuses

( - we could identify them with the crossing move of a **L – Rod** ) , - also have disappeared and vanished totally !!!

**B )** but also We are solving thus towards the highest extend also the ( - nowadays commonly as scientifically mostly unknown , - plus - ) otherwise ( - espe-cially from poorer people otherwise never to finance or to solve ; - what I ever don't like ; - ) huge problems of **VAASTHU** and **VASAATHI** ( - inside of the expla-nation at **Part 2 Side 2 ...** only touched ) ,

- (( - here related to the geographic – geologic status as of the shape of the surrounded landscape ;
- related to the also connected outside traffic situation , of the position of roads and direction of the entrances openings and windows ;

- from the effects of heavy weights ( - for example inside of rooms and houses ) , of walls and chimneys at the wrong places ;
- related to the distribution of the bathrooms as of the technical-electrical inventory
- from the effects of holes , of water-basins , directions of trees hills and rivers ;
- with maybe former burial places , or places of also in historical or in ancient times severe violence as cruelty ;
- of the geometry of the buildings , the conception of the rooms , and also how and where the houses and buildings are positioned inside the surrounded plots ;
- ( - as also regions of less or no children - and women rights - or with . . much of criminality and corruption ) etc. etc.
- ( - **the list of possibilities is very long here** ; - if You're interested more deeply, - see please inside of the qualified **VAASTHU** - literature ; ) , )

with the ( - here included some special measurement proportions of the **YONI – System** ) altogether most complicated regularities and functions of the **VAASTHU – PURUSHA – body** together and in interaction and connection with our All bodies ,

- respectively also the subtle impacting difficulties of all seem to be single **VAASTHUPURUSHAS** , - plus therefore also the subtle **VAASTHU – PURUSHA – not-alike** reactions towards all the bodies of all the human – , animal – , plantar – here also microbial – and subtle beings ;

- **all these difficulties have now just mostly disappeared likewise !!!**

And even testing over the personal saliva the potential of prosperity of a hut , a room , a flat or house , a skyscraper or a palace ,

- now we could measure an always harmonious output and result

- **as also an increase of AURA** , - and therefore also a common increase of health , vigour and strengthened immune-system conditions !!!

**C )** Also we are here powering up ( - here highest important , - “ fully harmonically” , ) the energetic live-supporting quality of agricultural goods , of fruits , vegetables , herbs , flowers as the whole living space of animals ;

- plus also powering up the energetic health of forests rivers lakes the atmosphere and also ( - see here please inside of the **M A T A T E C – Basics** ; - especially indirectly through lowering the subtle energetic pressures ( - through also on subtle levels highly polluted rivers ) upon them - ) inside of the oceans ;

Also in agriculture We had seen over the years ( - with all suchlike from myself developed Technologies ) an reduction of weeds , - sometimes much more and better growth of fruits and vegetables with better energetic quality ; - a reduction of fungus-illnesses plus better strength and resistance towards parasites !!!

And also now in India , – just a few days behind the **BRAHMA-STHAANAM – “ AUM ” – Energy** was working as harmonising the whole surrounding including the threads of water ( - *respectively the terrestrial subsoil waterlines also* ) deeply ,

– ( - *nevertheless we don't know if there is a connection to this maybe phenome-non* ) the trees and plants started to sprout their new green leaves ( - *however it was just in front of the beginning of the hot time in the **South Indian Decan Plateau** nowadays more desert – and arid – alike mountains ; -* ) – as me was told ,

– this year about 4 weeks earlier than “normally” !!!

**D )** But the energetic calming down has also an most hopefully emotionally as spiritual effect , – that through just all around vanished destructive subtle energies , **plus the full powers of** ( - *here also individually fully harmonious* )

## “ AUM ” – Healing – Energies

– also we as true human beings are coming or we will come more and more back to ourselves or ( - *here also accordingly an peace – loving ethic - social – ecological orientated live , - as towards **SATHYA – Truth** , **DHARMA – the honest deed** , **SHANTI – inner and outside Peace and Happiness** , **PREMA – Love** , **AHIM-SA – non-violence – or better with the powers of Kindness** ) towards our own soul – identical highest Self again !!!*

**E )** Also we are supporting thus all other Ayurvedic – , Allopathic – , Phyto-therapeutic – , Homeopathic – , Musictherapeutic etc. however medical Healing– and treatment – procedure ,

- also through an **“AUM”** – and **M A T A T E C – TECHNOLOGIES – identical** calming down of the subtle polarity-axes of all material ;

here all this now greatly inside of the whole radius of about **180 km** with the full powers of **“ AUM ” – Healing – Energies ,**

- **is highest helpful , valuable and supreme beneficial !!!**

**But** the energetic calming down ( - here as just mentioned above , - of the subtle polarity-axes ; - which means also that there is no energetic duality anymore , - ) has also an most hopefully emotionally as spiritual effect ,

- that through just all around vanished destructive subtle energies ( - *where also subtle energies are forming our emotions and thoughts ; - but thoughts and emotions are forming our deeds* ) , - **plus the full powers of** ( - here also individually fully harmonious )

## “ AUM ” – Healing – Energies

- also We as true human beings are coming or we will come more and more back to ourselves or

( - here also accordingly an peace – loving ethic - social – ecological orientated live , - as towards **SATHYA – Truth** , **DHARMA – the honest deed** , **SHANTI – inner and outside Peace and Happiness** , **PREMA – Love** , **AHIMSA – non-violence – or better with the powers of Kindness** )

**towards our own soul-identical highest Self again !!!**

**So with all these highest valuable benefits for the entire health vigor and happiness** for all Human and other animate living beings , plus also for all seem to be soul-separated inanimate things and aspects of highest consciousness ( - , included of microorganisms ) and the whole nature ; -

## **Our highly transformative healing**

### **M A T A T E C – Transformation – Aggregate**

- **sometimes plus an additionally openly built up**  
( - according to the requirements of the cultural background designed )

### **Central – BRAHMASTHAANAM – Point**

**should be build up** ( - surging for a protectively as lovingly covering up the surface of the earth over millenniums ; - ) -

**a ) For the Earth and Cosmos** ( - including for all seem to be separated parts or single aspects of highest consciousness ) **plus the Universe as a whole**

- b ) for the constructive energetic strength and vigor of States ,  
for social – cultural defined Nations and Regions ( - which are  
also having a different or special kind of **KARMA** )
- c ) For the also ethic – social – ecological health of Societies ,  
Countryside , Villages , Towns , Slums and Mega – Cities
- d ) for River – Springs , for Lakes , for Forests , Oceans and Wild-  
life Reservations
- e ) For industrial as agricultural used Areas and Regions , -

- wherever and anyhow possible **!!!**

**So – and therefore , – if anyone of All of YOU**

( - in western cultural traditions , - here also according to the ancient national energetic cen-  
tral points like the “ **OM** ” – **PHALLOS** – Thee **SHIVA – LINGAM** of Delphi /  
Greece ) **likes to proceed accordingly ,**

- **We are All invited , called and appealed for ,**  
**to do whatever We can ,**

**to help to bring and manifest this Godly Energy**  
**to highest effective worldly existence **!!!****

**So with best Greetings**

**AUM NAMAH SHIVAAYA**

**and**

**HARI AUM**

**Botida**

**F. Meyer**
